

Terms and Conditions

Terms of Service

Last updated: September 14, 2026

These Terms of Service ("Terms") govern access to and use of this ChatGPT plugin, application, connector, action, or related integration (collectively, the "Plugin"). By accessing or using the Plugin, you agree to these Terms. The Plugin is independently developed and operated. It is not an official OpenAI product and is not created, sponsored, endorsed, certified, operated, or supported by OpenAI unless OpenAI expressly states otherwise.

1. Relationship With OpenAI

The Plugin is made available through or in connection with services operated by OpenAI.

OpenAI is a separate entity from the developer of the Plugin.

Nothing in these Terms creates or implies any partnership, agency, joint venture, employment relationship, sponsorship, certification, endorsement, or other legal relationship between the developer and OpenAI.

The developer acts solely as an independent developer.

Your use of ChatGPT, OpenAI services, models, APIs, software, or other OpenAI products remains governed by the applicable agreements, terms, policies, documentation, and rules established by OpenAI.

2. OpenAI Terms Take Priority for OpenAI Services

These Terms govern only the Plugin and the relationship between users and the developer concerning the Plugin.

They do not replace, amend, limit, override, supersede, or otherwise modify any agreement between a user and OpenAI or between the developer and OpenAI.

For all matters involving OpenAI, ChatGPT, OpenAI services, OpenAI technologies, OpenAI intellectual property, or the operation of the Plugin within OpenAI services, the applicable OpenAI terms, policies, licenses, developer requirements, documentation, and decisions shall control to the fullest extent permitted by applicable law.

Nothing in these Terms is intended to restrict, waive, diminish, or interfere with any right or remedy available to OpenAI under its own agreements, policies, intellectual property rights, or applicable law.

3. Acceptance of These Terms

By using the Plugin, you agree to comply with:

- these Terms;
- all applicable laws and regulations;
- applicable OpenAI Terms of Use;
- applicable OpenAI Service Terms;
- applicable OpenAI Usage Policies;
- applicable OpenAI developer policies and requirements; and
- any other rules governing the OpenAI service through which the Plugin is accessed.

If you do not agree to these Terms, you should not use the Plugin.

4. Permitted Use

You may use the Plugin only for lawful purposes and in accordance with these Terms and applicable OpenAI policies.

You must not use the Plugin:

- to violate applicable law;
- to violate the rights of another person;
- to interfere with or disrupt OpenAI services or third-party systems;

- to introduce malware, malicious code, surveillance software, or other harmful material;
- to attempt unauthorized access to systems, accounts, networks, or information;
- to circumvent security, safety, technical, or usage restrictions;
- to misrepresent the Plugin as being created, endorsed, certified, sponsored, or operated by OpenAI;
- to misuse OpenAI intellectual property or trademarks; or
- for any purpose prohibited by OpenAI policies.

The developer may restrict or discontinue access to the Plugin where reasonably necessary for security, legal compliance, technical maintenance, abuse prevention, or compliance with OpenAI requirements.

5. Plugin Functionality

The Plugin is provided as an independent third-party integration.

Its features may change, be temporarily unavailable, or be discontinued.

The developer does not guarantee that the Plugin will always:

- remain available;
- remain compatible with ChatGPT or other OpenAI services;
- operate without interruption;
- produce complete or accurate results;
- retain any particular functionality; or
- remain eligible for distribution through OpenAI.

OpenAI may independently change, restrict, suspend, delist, reject, or remove access to the Plugin in accordance with OpenAI's applicable terms and policies.

The developer has no authority to require OpenAI to publish, distribute, promote, rank, maintain, or continue supporting the Plugin.

6. OpenAI Intellectual Property

All rights, title, and interest in and to OpenAI, ChatGPT, OpenAI models, OpenAI APIs, OpenAI SDKs, software, systems, documentation, developer tools, services, technologies, interfaces, trademarks, service marks, names, logos, icons, designs, branding, and other materials owned, controlled, licensed, or otherwise reserved by OpenAI or its affiliates remain exclusively with OpenAI and its applicable licensors.

The developer asserts no ownership whatsoever over any intellectual property, technology, service, trademark, content, asset, right, or other interest that belongs to OpenAI or is otherwise reserved to OpenAI.

Nothing in these Terms, the Plugin, its publication, its operation, or its availability through ChatGPT shall be interpreted as transferring any OpenAI intellectual property to the developer.

Any permission to use OpenAI property exists solely to the extent expressly granted by OpenAI and remains subject to OpenAI's applicable terms, licenses, policies, documentation, and brand guidelines.

Any goodwill arising from the developer's permitted use of OpenAI trademarks, names, logos, or other OpenAI brand assets belongs to OpenAI as provided by OpenAI's applicable terms.

The developer expressly disclaims any claim of ownership or proprietary interest in OpenAI intellectual property.

7. No Challenge to OpenAI Ownership

The developer does not claim any ownership interest in OpenAI's services, technologies, systems, models, APIs, software, documentation, trademarks, branding, or other intellectual property.

Nothing associated with the Plugin is intended to challenge, contest, appropriate, dilute, restrict, or interfere with OpenAI's ownership or intellectual property rights.

To the extent that any right, authorization, license, or permission concerning OpenAI property is necessary for operation of the Plugin, such right exists only to the extent granted or permitted by OpenAI.

8. Developer Materials

Any original material independently created by the developer remains subject to its applicable license, copyright notice, or other terms.

However, nothing concerning developer-created materials grants the developer any ownership or control over OpenAI property incorporated into, accessed through, referenced by, or associated with the Plugin.

Any rights granted by the developer concerning the Plugin operate subject to all superior rights held by OpenAI and third parties.

9. License and Technical Operation Through OpenAI

The developer acknowledges that operating and distributing the Plugin through OpenAI services may require OpenAI to access, process, store, reproduce, translate, display, modify, transmit, distribute, test, review, or otherwise handle certain Plugin materials, responses, metadata, or associated content.

The developer grants, acknowledges, and accepts all rights and permissions reasonably necessary for OpenAI to operate, review, test, distribute, display, promote, secure, moderate, or otherwise make the Plugin available to users, to the extent provided for under the applicable agreements between the developer and OpenAI.

Nothing in these Terms is intended to reduce or limit any license or authorization separately granted to OpenAI under OpenAI's developer terms or other applicable agreements.

10. User Content

The developer does not claim ownership of user content merely because that content is processed through the Plugin.

Content submitted through ChatGPT or another OpenAI service may be processed by OpenAI in accordance with the applicable agreement between OpenAI and the user or the user's organization.

The developer has no authority to alter those agreements.

Users are responsible for ensuring that they have the necessary rights to submit information or content through the Plugin.

11. Privacy

Use of the Plugin is also subject to its Privacy Policy.

Information processed independently by OpenAI is governed by OpenAI's applicable privacy policies, terms, data controls, and agreements.

The developer and OpenAI remain separate entities with respect to their respective processing activities except where expressly provided otherwise by applicable agreements or law.

12. No OpenAI Endorsement

Publication, listing, discoverability, availability, review, testing, or distribution of the Plugin through ChatGPT or another OpenAI service does not constitute an endorsement, certification, recommendation, warranty, sponsorship, or approval of the Plugin by OpenAI.

The developer shall not represent otherwise.

Any reference to OpenAI, ChatGPT, or other OpenAI products is made solely to describe compatibility or integration where permitted.

13. OpenAI Decisions Regarding the Plugin

OpenAI retains whatever rights are provided to it under its applicable terms and policies regarding the publication, distribution, operation, testing, review, visibility, ranking, suspension, restriction, or removal of the Plugin.

The developer acknowledges that OpenAI is under no obligation under these Terms to:

- accept the Plugin;

- publish the Plugin;
- continue distributing the Plugin;
- provide any particular ranking or visibility;
- maintain compatibility with the Plugin; or
- provide notice to users regarding changes to the Plugin's availability except where OpenAI independently assumes such an obligation.

The developer makes no claim against OpenAI under these Terms merely because OpenAI refuses, restricts, suspends, removes, delists, modifies the availability of, or otherwise takes action concerning the Plugin.

Nothing in this Section waives rights that cannot legally be waived.

14. Third-Party Services

The Plugin may interact with third-party services.

Those services are governed by their respective terms and privacy policies.

Neither OpenAI nor the developer is responsible under these Terms for acts, omissions, content, availability, security, or policies of unrelated third-party providers, except to the extent responsibility cannot lawfully be excluded.

15. Disclaimer of Warranties

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE PLUGIN IS PROVIDED "AS IS" AND "AS AVAILABLE."

THE DEVELOPER MAKES NO GUARANTEE THAT THE PLUGIN WILL BE UNINTERRUPTED, ERROR-FREE, SECURE, COMPLETE, ACCURATE, OR SUITABLE FOR ANY PARTICULAR PURPOSE.

NO WARRANTY REGARDING THE PLUGIN IS MADE ON BEHALF OF OPENAI.

THE DEVELOPER HAS NO AUTHORITY TO MAKE ANY REPRESENTATION, WARRANTY, COMMITMENT, OR PROMISE ON BEHALF OF OPENAI.

NOTHING IN THESE TERMS CREATES ANY WARRANTY OR OBLIGATION FOR OPENAI BEYOND THOSE EXPRESSLY UNDERTAKEN BY OPENAI IN ITS OWN APPLICABLE AGREEMENTS.

16. Limitation of Liability

To the maximum extent permitted by applicable law, the developer shall not be liable for indirect, incidental, special, consequential, exemplary, or punitive damages arising from the use of or inability to use the Plugin.

The developer is not responsible for interruptions, modifications, restrictions, decisions, outputs, or actions attributable to OpenAI services or independent third-party services.

Nothing in these Terms attempts to impose liability upon OpenAI for the operation of this independently developed Plugin.

Nothing in these Terms limits liability that cannot legally be limited or excluded.

17. User Responsibility

Users remain responsible for their own use of the Plugin and for decisions made based on information obtained through it.

Users must independently evaluate information where accuracy, safety, legality, financial impact, health, security, or other significant consequences may be involved.

The Plugin must not be interpreted as creating a professional, fiduciary, advisory, employment, agency, or similar relationship unless expressly stated otherwise.

18. Compliance With OpenAI Requirements

The developer intends to operate the Plugin in compliance with applicable OpenAI developer requirements.

If OpenAI requires a modification to the Plugin, its functionality, documentation, privacy practices, security practices, branding, or distribution as a condition of continued access to OpenAI services, the developer may implement such changes without prior notice where reasonably necessary.

The Plugin may also be suspended or discontinued where necessary to comply with OpenAI requirements.

19. Suspension and Termination

The developer may suspend, restrict, modify, or terminate the Plugin or a user's access to it where reasonably necessary, including in cases involving:

- violation of these Terms;
- violation of OpenAI policies;
- unlawful activity;
- abuse;
- security concerns;
- technical problems;
- legal obligations;
- requests or requirements imposed by OpenAI; or
- discontinuation of the Plugin.

Termination of access to the Plugin does not alter rights or obligations arising under separate agreements between the user and OpenAI.

20. Changes to These Terms

These Terms may be updated from time to time to reflect changes to:

- the Plugin;
- applicable law;
- OpenAI policies or developer requirements;
- security requirements;
- technical infrastructure; or
- the way the Plugin is distributed.

The date shown at the beginning of these Terms indicates the most recent revision.

Continued use of the Plugin following an update constitutes acceptance of the updated Terms to the extent permitted by applicable law.

21. Severability

If any provision of these Terms is found invalid, unlawful, or unenforceable, that provision shall be interpreted or limited to the minimum extent necessary, and the remaining provisions shall continue in effect.

22. No Waiver

Failure to enforce any provision of these Terms does not constitute a waiver of that provision or any other right.

23. Mandatory Legal Rights

Nothing in these Terms excludes, restricts, or waives consumer rights or other legal protections that cannot lawfully be excluded or waived.

Where applicable mandatory law conflicts with these Terms, the mandatory law shall apply only to the extent required.

24. Contact

Questions concerning these Terms or the Plugin may be directed to the developer using the contact information provided in the Plugin's official listing or associated website.

Questions concerning ChatGPT, OpenAI accounts, OpenAI services, or OpenAI's processing of information should be directed to OpenAI through OpenAI's official support, privacy, or legal channels.

OpenAI Rights Reservation

For the avoidance of doubt: All rights, interests, intellectual property, technologies, services, software, systems, models, APIs, documentation, trademarks, branding, data rights, licenses, and other assets belonging to OpenAI, controlled by OpenAI, licensed to OpenAI, or otherwise reserved to OpenAI remain solely with OpenAI and its applicable licensors.

The developer asserts no ownership, partnership interest, proprietary entitlement, license beyond that expressly granted, or other claim over OpenAI or any OpenAI property.

These Terms are not intended to reduce, alter, waive, challenge, or interfere with any right, authorization, protection, remedy, contractual entitlement, intellectual property right, or other interest held by OpenAI.

Where these Terms and an applicable OpenAI requirement address the same subject matter concerning OpenAI services, the OpenAI requirement shall govern to the fullest extent permitted by applicable law.

This document should be read together with the applicable OpenAI terms, policies, and developer requirements.
